NEXT EVOLUTION IN PERSONAL TRANSPORTATION

The next generation in multi-purpose, eco-friendly transportation

Now riders can 'Surf The Earth' just about anywhere they want to go.

INTEGRATED THUMB THROTTLE

Speed Control With Automatic Braking

ELECTRO MAGNETIC BRAKING SYSTEM

Rear Wheel Lock For Steep Hill Parking

UNDERCARRIAGE DEFLECTION SYSTEM

Motor Gearbox Protection

NONSLIP RHINO LINER DECK

Durable and Ergonomically Designed

THE FUTURE IS NOW!

After years of design, development and testing the **ResortBoard** is now available in the UAE

We are committed to changing the way people choose to travel. Blending fun, convenience, performance and ease of use in a revolutionary new personal transportation vehicle. Our mission is to create the next generation of leisure mobility.

Expect to see major hotels and theme parks offering ResortBoards to explore their properties. Premier eco-friendly resorts will have ResortBoards so that guests can enjoy guided tours of the beautiful surroundings.

The ResortBoard will transform vacation and tourism transportation by providing a unique new experience for travellers and guests. Soon you will be able to explore the beautiful scenery of the United Arab Emirates on an eco-friendly personal transportation vehicle.

Residents of gated communities will be able to pop down to the shops and visit neighbours on a ResortBoard. Explore the corniche or the boardwalk in an exciting new way. The possibilities are endless!

Our ResortBoard is the Next Evolution in Personal Transportation

A highly versatile personal transportation vehicle, our ResortBoard is perfect for getting around large resorts, residential communities, theme parks, harbours and marinas. Every tourism destination with a large property can offer ResortBoards as a fun, convenient, low cost eco-friendly alternative for getting to the store, pool, tennis club, restaurants as well as for shopping, picnicking and sightseeing. The ResortBoard is simply the most exciting, safe and accessible way to experience any vacation destination.

Looking for a more active and environmentally friendly way to get around? Become a ResortBoard owner today-it weighs only 65Kg s, and costs just Dh1 a charge for up to 29km. The ResortBoard can be used on pavement, gravel, loose dirt and sand. The detachable carry baskets and cooler allow you to bring extra gear, drinks and snacks. With over 180kg of total carrying capacity you can load tools and other equipment for your excursion.

The rugged design includes heavy-duty front and back spring brackets, off-road suspension system, plus extra-large wheels that improve stability and optimize ground clearance. ResortBoards are also equipped with an undercarriage protection system that includes gearbox skid cover and protective roller bars.

Whether you're a vacation destination looking to introduce an exciting new offering, or an individual user who wants to take advantage of the convenience of a narrow profile electric personal transportation vehicle, the ResortBoard will provide an unforgettable 'Surf The Earth' experience.
